

Supporting Local Communities

The entire Mabuchi Group has continuously been conducting various community activities including an activity to protect the environment and social and welfare activities.

Supporting local communities around the world

Volunteers from Jiangsu Mabuchi participated in activities organized by Wuzhong District in Suzhou City with the primary purpose of caring for and supporting healthy growth of young people.

Social Welfare Efforts

We continuously visit and make donations to children's homes and elderly care homes to extend a helping hand.

In 2019, Jiangxi Mabuchi employees donated clothing, shoes, and bags to families who need financial assistance. At the same time, they have been able to influence the recycling of waste to protect the environment.

Social Welfare Efforts

Afforestation, beautification and cleaning activities

We are continuing to beautify and clean up the area

Clean-up activities

Donating Blood Activity

Mabuchi employees at the Head Office and other locations are actively cooperating in donating blood as a Group-wide activity. The Headquarters has been receiving a letter of appreciation from the Red Cross Society every year.

Donating Blood Activity

Coexisting with the local environment

We have created a bio-garden in the front lawn of our head office based on a concept of coexistence with the local environment, with the goal of restoring the natural environment of Matsudo in Matsuhidai Industrial Park.

We considered the impact of non-native species on the local ecosystem and created the bio-garden with the goal of restoring the original ecosystem by eradicating the Canada goldenrod, an invasive species, and by planting wildflowers such as *patrinia scabiosaefolia* and *patrinia villosa* which have traditionally grown around Matsudo. We continue to manage the site with environmental awareness, keeping in mind its location as a biotope network that maintains the connection with the local ecosystem that spans a wide area rich with nature that includes the neighboring Yahashira Cemetery and the Yagiri-no-Watashi Ferry.
